Rescued From Death.
William J. Connelley, of Somerville, Mass., says: In the fall of 1879 I was taken with rheumatism of the lower followed by a severe cough. I took my appetite and food, and was confined to my bed. In 1877 I was admitted to the hospital. The doctor said I had a little more to live than a half dollar. At one time a report went around that I was dead. I was up home here a friend told me of Dr. WILLIAM HALL'S BALM FOR THE LUNGS. I got a bottle, when to my surprise, I commenced to feel better, and to-day I feel better than for three years past. I write this hoping some one afflicted with Rheumatism will take Dr. WILLIAM HALL'S BALM FOR THE LUNGS. I can positively say it has done more good than all the other medicines I have taken since my sickness.

The orange, coconut and lime groves of Florida are attracting thousands. It is known as "the lemon of Florida." The best way to get a lemon is to go to a leading Florida paper. A delicious fragrance of fresh gathered flowers and spices is the distinguishing charm of Florence Cologne. 1882.

Beauty Regained.
The beauty and color of the hair may be safely retained by using Parker's Hair Balm, which is much admired for its perfume, cleanliness and dandruff eradicating properties. 1882.

How to Save.
All hard workers are subject to bilious attacks which may end in dangerous illness. Parker's Glycerin Tonic will keep the kidneys and liver active, and by preventing the attack save much sickness, loss of time and expense. 1882.

Hon. John Wolfkill, of Napa, sold \$4,000 worth of apricots from 850 trees, standing on less than three acres of ground, this season.

Chinese railroad workers have eaten up most of the hogs in Douglas county, Oregon. Pork bids fair to be high and scarce in the Southern Oregon market this fall.

Two freight wagons and 26 oxen were drawn over a bluff into Frazer river and lost, with all the goods in the wagons, valued at \$5,000. The bluff was 400 feet in height.

The wheat yield of Umatilla county, Oregon, far exceeds the expectations of the most sanguine, both in the quality of the grain and the yield. One field of wheat near Centerville averaged fifty-three bushels per acre, and nearly all the fall sown crops will go from thirty to fifty bushels per acre.

Mrs. J. Manning, of San Jose, was taken in charge by an officer, while on her way to Fresno, on suspicion that she was insane. On her trial on Monday at Stockton, one witness testified that she was awake the night before, mumbled incoherently. She interrupted the witness by saying, "Yes, I was awake, killing mosquitoes." She attempted to escape, running away from the guards, but was afterwards retaken and committed to the asylum.

"The gratifying action of St. Jacobs Oil in my case," says John S. Krim, agent for the N. Y. & B. Trans. Co., Pier 7, North river, New York, "gives me unlimited confidence in its great general curative power, and I freely recommend it."

EDITORIAL NOTES.

Recent experiments made in France show that trichine are killed by freezing, but as it is necessary in order to make the matter safe to bring the meat to a temperature of 30 degrees below zero, it does not seem likely that the process will ever be made of any practical value in treating pork unless the refrigerating process of shipping meats should come into general use. The experiments referred to were made with a view of the great American packing houses to overcome the scruples of the French sanitary experts.

Notwithstanding the enormous outflow of population from Europe, and the simple if not scanty diet of the poorer masses that remain, the problem of food supply is already a serious one. The increase of population is about 3,000,000 a year, while the annual food product is only equal to 11 months' consumption. The rest, aggregating nearly 800,000 tons of meat and 8,500,000 tons of grain, has to be imported. The chief deficit is in the British Islands, which have imported every year nearly 300,000,000 bushels of grain and 650,000 tons of meat.

The Eureka Leader, in an article presenting the name of General Connor for Congress, concludes as follows: "The nomination of General Connor will be practical proof that the Republicans of Nevada appreciate the fact, and will do their best in bringing about such a result. No man in the Republican party can keep his lines more solid, nor is there one who can take more recruits from the Democracy. He will be nominated by acclamation, and elected by a majority such as has rarely been given any candidate in Nevada."

Interesting experiments are being made in dredging and sounding the Gulf Stream. The steamer Blake, under command of Bartlett, is finely equipped for the work, the sounding apparatus being as near perfection as possible, enabling the experimenters to attain a depth of three miles. It is found that the flow of heated water continues to the lowest tested depth, which adds a new interest to that remarkable stream. The bottom is of ooze or mud in most places.

An old ex-Congressman of Ohio, who also wears the title of Governor without ever having the honor, has been sued by a blooming widow at Cincinnati for a breach of promise. His name is Morton, and the widow is the divorced wife of the Hon. Fred Hassarek. He is 80 and she 50 years of age. His letters to the widow, his "Darling Cricket," as he called her, write him down as a spongy idiot in need of a guardian. The old goose will get badly picked before an ordinary jury.

All the New York Banks are preparing to turn gold reserves over to the Government, under the new law compelling the issue of certificates of deposit. Thus speedily it is demonstrated that the issue of certificates will strengthen instead of weaken the treasury's reserve. Twenty per cent. of all the gold thus deposited will at once be available for the redemption of greenbacks if needed.

The Chicago Tribune incisively says: "Dr. Mudd, who was sent to the Dry Tortugas for alleged participation in the conspiracy for the murder of President Lincoln, has applied to Congress for pay as surgeon during the time of his imprisonment." It is hardly necessary to state that Dr. Mudd's cheek is in an excellent state of repair.

The Exchange cruelly says: Will some one please send us a small article of the Stoneham "boom"? We wish to present it to our esteemed contemporary the Examiner.

The Carson Tribune has private information to the effect that four of the seven Humboldt Democratic delegates are for Canada.

The Governor of Texas has asked the United States Government for aid for the yellow fever sufferers.

EASTERN DISPATCHES.

Impure French Brandy.

WASHINGTON, August 17.
The July number of the Consular reports contains reports by Consul G. J. Gifford, of Lavoche, on the falsification of brandy reports from Lavoche, France, to the United States. The production of genuine brandy from white wine, in France, Gifford thinks, has substantially ceased on account of the failure of the vine. The greater part of the brandy now sold is prepared from alcohol obtained from grain, potatoes or beets. Coincident with the failure of the white wine crop, has appeared large quantities of alcohol in some parts of France adjacent to the white wine producing sections of the country. Most of it is coming from Germany. This importation of alcohol he says increases from year to year, and is now 46 per cent. greater than in 1880. Gifford closes his report as follows: "All French brandy might properly, and perhaps ought to be excluded from the United States on sanitary grounds. There is a strong presumption against the purity of a large part of it, and it is unfortunately almost impossible to detect fraud by chemical analysis, especially where the various mixtures now employed are piped through the still. The reputation of a few of the great houses that now place on the market only what they draw from their own stocks accumulated before 1879, might be of sufficient guarantee of purity of the merchandise. But even with respect to them it may be said that they dose their brandies with caramels and other substances in order to adopt them to the tastes of their English and American customers. They would never venture to send to the United States a strictly pure brandy as it comes from the still, for our amateurs would regard it as harsh and inferior and perhaps a falsified article. In any case these houses could hardly be expected by name from the operation of such measures as might be taken to protect the public health. General measures excluding the article entirely, would seem, therefore, to be the only effective defense against the admission of an article for which our people pay one or two million dollars a year besides the import duty, which in the case of an impure article is over 100 per cent. of the invoice value."

Remarkable Disclosure in the Miss Bond Outrage Case.

TAILOREVILLE, Ill., August 18.
The father of Miss Bond, so cruelly outraged, and for the alleged complicity in which deed Clements, Pettis and Montgomery came so near being lynched a short time ago, has received a letter dated at Chicago, which professes to come from a tramp who was near by at the time of the brutal deed, and who professes to know the facts. He says in his letter: "You should have let the mob take their course. It would be only just punishment for the three brutes and Dr. Vermillion, who is not so bad, because he had no part in the outrage, but he knew what was going on just the same. My wife wished me to write a week ago to you, but I thought the law would deal justly with the scoundrels. I happened to be going through Taylorville that same day. I shall not mention why, but those who outraged your daughter are the very three that have been arrested. Pettis and Clements were the two concealed up stairs. John Montgomery's brother came and was afraid. He told the other three to fly for their lives, as some damned spy was around. John Montgomery and Clements came out together from the school-house. One of the two made the remark, 'She will not be stuck up after this.' That was all I heard. I am the tramp whom they mentioned. Montgomery knows me well."

Bond thinks he knows who the writer is, and that it is some one who resides in Grove City or neighborhood, and who was in Chicago when the letter was written, but does not wish the name disclosed until he is better informed. Bond offers \$100 reward to the writer if he will come forward and support his letter.

Butler Nominated.

BOSTON, August 18.
The Greenback Convention proceeded to ballot for a nominee for Governor, with the following result: Whole number of votes, 158; necessary for a choice, 74; B. F. Butler, 67; Judge I. W. Andrews, 52; John M. Devine, 37. The name of Devine was withdrawn. The second ballot resulted: Whole number of votes, 186; necessary for a choice, 69; Butler, 76; Andrews, 46; Devine, 13. General Butler was declared nominated.

Troublesome Red Cloud.

OMAHA, August 19.
In answer to the telegram of inquiry sent from military headquarters at Omaha, Dr. McGillicuddy, Agent at the Pine Ridge agency, telegraphs to General Crook that the trouble among the Sioux Indians was caused by Red Cloud and a few dissatisfied followers who have been instigated thereto by white influence. McGillicuddy yesterday summoned a council of all the

chiefs and head men and they unanimously voted to crush out any rebellion, and they swore allegiance to the government of the Indian police. McGillicuddy says there is no danger of an outbreak and no troops are required at present, but Red Cloud will always be a source of trouble, and should be removed to Fort Leavenworth. Agent McGillicuddy also adds that the interference of white out-throats in Northern Nebraska should be prevented, and all that he requires is authority and power.

Burned to Death.

CHICAGO, August 19.
Early this morning a fire broke out in the Walton House, at 33 East Washington street, a not too reputable locality, and from room 45, where the smoke was thickest, agonized screams of a woman were heard. The firemen broke into the room, extinguished the flames, and found Mrs. Frank Flynn lying on the bed, burned out of a resemblance to a human form, and barely alive. She appeared to have upset the kerosene lamp in an insane or drunken frenzy. She was taken to the county hospital to die. Her flesh was burned to a crisp.

EGYPT'S TROUBLE.

Fighting Commenced on Mapmondieh Canal—Heavy Firing Near Aboukir.

ALEXANDRIA, August 19.
Six transports with troops and two gunboats left this port Friday night to take a position outside the harbor, ready to start Saturday at 1:15 p. m. The transports and fleet are now steaming eastward. The ships have their topmasts lowered and yards secured, with everything cleared ready for action at 4:40 p. m. Heavy firing in the direction of Aboukir has just begun.

ALEXANDRIA, August 19.

The arrest of the person mentioned as having been in constant communication with the rebels, was made this morning.

Long, the American Consul, was attacked yesterday inside the Gabarri gates by a mob of about 40 persons. Native soldiers arrived and dispersed the crowd. The ringleader of the assaulting party was arrested. It appeared that the natives tried to stop Long when he was driving. He became annoyed and urged on his horse, inflicting injuries on some of the party.

ALEXANDRIA, 6 p. m.
Fighting commenced this afternoon on Mapmondieh Canal. The British are using heavy guns brought in the neighborhood of Mitlafe junction. The fighting still continues.

LONDON, August 19.
A dispatch from Alexandria states that General Willis and Graham and the Duke of Connaught had gone to Aboukir. Of the whole fleet of iron-clads the Invincible and Inconstant alone remain. The forty-ninth, seventy-fifth and seventy-ninth regiments, at Ramleh, will probably support the movement at Aboukir by an attack on the enemy's left flank.

DUBLIN, August 19.
One of the two boys wounded at the time the Joyce family were murdered.

has died of his wounds. He was only 14 years old. The other boy, who is but 12 years of age, is in a very precarious condition. He stated that the assassins, who were disguised, numbered four or five. Joyce's other was over 80 years of age. A part of her body was devoured by dogs before her corpse was discovered. The house in which the family lived presents a shocking spectacle. The bodies of the victims lie on the floor riddled with bullets, and are mangled as if they had been battered with a hammer. The murder was the most horrible that ever disgraced even Ireland. Four persons have been arrested on suspicion.

The Dynamite Fiend.

VIENNA, August 18.
A dispatch from Trieste says the Lloyd steamer that arrived to-day from Venice had on board a box, which was opened by the police, and found to contain bombs and petards; also, documents proving that the torchlight procession last night in celebration of the Emperor's birthday was intended to be made the occasion for further outrages. Previous to the opening of the box the consignee was arrested.

Fatal Accident at Austin.
AUSTIN, Nevada, August 19.

At about 5:30 this morning as the mules for the relief of the motor of the Austin street railway was descending the grade between this town and the Nevada Central railroad depot at Clifton, the steam brakes broke while it was on a steep portion of the grade, and the engine became unmanageable. As it was turning a curve it fell over, burying Andy Wright, the engineer, under the wreck, killing him instantly, and mangled his body in a terrible manner. He was esteemed in our town and was noted for his bravery and coolness, always standing at his post in the face of every danger. He leaves a wife and two children in Rocklin, where he was well known. When Wright saw that the motor could not be stopped he told his fireman, Frank Daily, to jump off, which the latter did, escaping with very little injury. A general feeling of mourning has overtaken this town in consequence of this sad accident.

The Result of the Fight.

TUCSON, A. T., August 19.
The Star speaks of the advice of the 18th from Hermosillo, Sonora, says that in the fight with the Apaches in the Sapuaripa district, the Mexican troops lost forty-five men, and the Indians left thirty-eight dead on the field. Eighteen women and twelve children were killed on the road between Sapuaripa and the Trinidad mine. There are one thousand national troops expected shortly, 160 are coming by steamer. The Indian prisoners are still in Hermosillo.

Eight prisoners in the county jail. Five of whom are subjects for the Grand Jury. Two women, both charged with arson, are among the number.

The music for the dance at the Theater last night was furnished by Messrs. Hoff, Hastings, Cook, Fulmer, Uddike and Wintermantel and Miss May Finlayson, and, considering the fact that it was the first time that they had played together, was first-class. With a little practice they would perhaps excel the former orchestra, which was a very good one.

The office of the Marshal will be in Mr. Ricketts' office in the Bank of California building, Virginia. Requisitions have been sent on for the funds necessary to defray the expenses of the courts, and from this time no hitch will occur in transaction of official business. Marshal Corbett will appoint other deputies throughout the State as occasion requires.

Storey County Officers in Trouble.

Parties from Virginia tell the Carson Appeal that the people of the Comstock are expecting some startling developments from the investigations of the Grand Jury, and that some men who are even as yet regarded as having clean hands are shaking in their boots. If all these things are true the Democratic administration of Storey county affairs must be somewhat alarming. But a very short time will unfold the whole tale.

A Nice Trip.

Mrs. Preble, Mrs. A. Moger, Mrs. E. Gibbs, Mrs. R. Kinkead, George Conkling and Wm. Fisher left this morning for a trip around Lake Tahoe. Stewart and Captain Moger will join them to-morrow. They go by the way of Carson.

PROFESSOR RING'S RECEPTION.

The Pleasant Reception of the Reno Public School Proves an Interesting Entertainment.

The long talked of reception to Professor Orvis Ring was held last evening at the Nevada Theatre. It amounted almost to an ovation. The house was packed from top to bottom, and the exercises, which lasted about one hour, were much enjoyed by those present. The welcome address by G. A. Rankin was brief, but eloquent, and his closing advice to Prof. Ring, "to marry and settle down among us," was received with evident satisfaction by the audience. The greeting song by the old pupils was well rendered. The violin quintette by three boys and two girls was excellent and received a deserved encore. After which came a series of tableau representing various scenes in life where a bell figured from the time of its casting at the foundry until it reaches the church steeple. The seven tableaux were all good, the "bridal" and "fire" scenes being particularly fine. Miss Julia Wintermantel's character song received an up-rising encore. The feature of the evening, perhaps, was the presentation speech of Miss Lucy Kittrell. The young lady very feelingly referred to Prof. Ring's 12 years of services in Reno's public school; gave him to understand that while the scholars of the school accepted the decision of the School Trustees with good grace, it was with deep regret that they received the news of his removal. She closed with a touching reference to the regard in which he was held by all his old pupils, and presented him with an elegant gold watch, the gift of the scholars. Mr. Ring's feelings were so worked up that he found difficulty in making any response. He thanked the audience and pupils for their reception and gift as best he could, and took his seat. Appropriate resolutions were then read by Dr. Lewis, and the entertainment closed with the parting song by the scholars. Dancing was then begun and heartily enjoyed by a large crowd of young folks until 2 o'clock.

Human Remains Found.

Louis Spillner, when returning from the swimming grounds up the river yesterday, discovered a hole in the ground in the field just east of town, in which was a large earthen jar containing the bones of a human being. They were clean and white, undoubtedly having been boiled. The bones are supposed to be those of some son of the flowery kingdom who had outlived his usefulness here and departed for the other shore. It is quite likely that the remains are ready for shipment to China. Some, however, incline to the belief that murder has been committed. The mystery will be investigated by the authorities.

Fire in the Blankets.

Ollie Eaton, engineer at the Asylum, started down Virginia street last evening on horseback, with a volume of smoke rising from his saddle blankets, indicating that something was out of joint. He had not proceeded very far when the horse showed unmistakable signs of insanity, and he found it necessary to dismount. Upon examination it was found that the saddle blanket was on fire and the heat was becoming very uncomfortable for the mustang. A stream of water from a street hydrant extinguished the flames and Mr. Eaton went on his way. Loss, one saddle blanket. No insurance.

Oakland vs. Carson.

Pierce & Co., hardware dealers in Oakland, Cal., have written a letter to Geo. C. Thaxter, says the Carson Tribune, proposing a shooting match between two men whom they shall hereafter name, and Mr. Thaxter and party, 100 rounds, 50 at 200 yards and 50 at 500 yards. Mr. Thaxter has accepted the banner, and named as his companion shot Mr. Haakins. It is presumed that the California men will be Nick Williams and Col. Kellogg. The date of the match has not yet been settled upon.

Robbery.

Wintermantel's saloon, on Center street, was burglarized last night. The thieves effected an entrance at the rear door by prying the lock off. They ransacked the premises from one end to the other, breaking open a trunk which had been left there for safe keeping. They got but little of value, however, for their trouble. They took all the whiskey, beer, bitters and cigars they could find and left. Officers are on the lookout, and will most likely take them in to-day.

August Duck Shooting.

The President, Treasurer and Secretary of the Winnemucca Sportsman Club, took Hon. C. S. Varian down on the Humboldt river a day or two ago on a duck hunt, the party succeeding in getting over 80. The Club members claim that in order to get any duck shooting at all they are obliged to violate the game law, as, as they say, the ducks leave that section of the country the latter part of August.

Ready for Grading.

J. Griffin, roadmaster of the C. P. railroad, is in town looking for teams to grade the new site for the Wadsworth machine shops.

MINT MATTERS.

Director Burchard Will Lay the Charges Made Against Superintendent Crawford Before the Department, and Will Order an Investigation.

Horace M. Burchard, Director of U. S. Mints, left for the East last evening. The Tribune says, "Mr. Burchard examined published documents concerning malfeasance of some of the Mint officials, but became convinced that the reports were furnished by irresponsible parties, and finding everything in and about the Mint on the square, he concluded, for the sake of the officers, to send a person from Washington to make a thorough examination of the charges preferred. It seems as though the movers in the ridiculous plot would endeavor to hide their diminished heads, and that the seekers for position in the Carson Mint would arrive at the conclusion that their day had not yet come."

ANOTHER ACCOUNT.

The Bee says: "Mr. H. C. Burchard, Mint Director, left Carson last evening for Denver, where he will remain for some time, and will perhaps not reach Washington for three weeks. The gentleman is collecting statistics of the mineral products of the States and Territories for his report of next year. Mr. Burchard had not been fully apprised of the extent of the charges preferred against the mint, but is now in full possession of the same, and concludes from their voluminousness that an investigation is necessary. The Director regretted not having time to spare now to conduct the investigation in person. Mr. Burchard will lay the charges before the Department, and a person will be sent out in the early part of September to examine witnesses, hear evidence and make a thorough investigation. In the meantime additional evidence will be collected and forwarded to the Director. Mr. Burchard seems to understand that in view of what has been published regarding the Mint management, an investigation is an absolute necessity, and the Director expresses anxiety to sift the affair thoroughly."

JEWELRY GARTERS.

A Gloomy Prospect for Young Men Who Intend to Marry.

The jeweled-garter craze has reached St. Louis. A jeweler there said to a reporter: "We are executing several large orders in diamonds this month, one of them being a particularly handsome pair of garter clasps for the wife of a Texas railroad manager. There is a growing demand for garter clasps for presents to ladies, and I expect to see them the craze during the holidays. These clasps are made up very elaborately, with monograms and jewels and all that sort of thing, and must look very handsome when worn. You'd be surprised if I told you how many we had made for ladies whose names are quite familiar. They are generally ordered by the men for birthday and wedding gifts, and it is really quite the thing to make a present of that kind. Why, one of the most popular hotel men in the city was inquiring into the matter a day or two ago, with a view of having a pair made to send to some young lady friend."

The Primaries.

The contest over the selection of delegates to the convention is being vigorously fought by the friends of both tickets, and a full party expression will be the result. The battle is being conducted in a good natured sort of a way, and the best of feeling prevails. Up to the hour of going to press 214 votes were cast. The unpledged ticket, will, from present indications have a majority variously estimated from 50 to 75 in this precinct. No news from the outside precincts.

Another Stage Robbed.

The Cherry Creek stage was robbed on Wednesday, and Wells, Fargo & Co.'s treasure box rifled. The Kelton stage robbers were, as stated by J. N. Thacker, run into Nevada, and they took the Cherry Creek stage in on their way south.
